

Barcode Manager

The stress-free way to generate barcode numbers and symbols.

Barcode Manager is a new online tool from GS1 Ireland to help you allocate barcode numbers and generate barcode symbols accurately and effortlessly.

With Barcode Manager you can:

- Generate barcode numbers for a new product
- Store barcode details for existing products
- Compile a data profile for products to include brand name, description and details such as weight, size, flavour or colour
- Generate barcode symbols in a variety of file formats
- Upload existing product information from other systems via spreadsheet.

Fast, accurate,
effortless - barcodes
made easy with
Barcode Manager

Barcodes made easy

Why use Barcode Manager?

- **Fast** - quickly allocate barcodes; no manual check digit calculation required
- **Accurate** - sequential number allocation reduces error and duplication
- **Convenient** - store your product data online & print product summary sheets
- **Secure** - an external archive of all your barcodes and product descriptions
- **Visual** - guides you where to place the barcode on your packaging and an easy-to-use interface
- **Image generation** - as a extra feature generate barcode symbols for each barcode number you allocate
- **Effortless** - Express Allocation for barcodes in an instant

With Barcode Manager's built-in check digit function a whole stage of the barcode generation process is now automated, saving time and preventing errors.
